CH. 3 GENERAL PROVISIONS

§ 3101. License: Requirement.

(a) Unless expressly exempted under this Title, a person shall not drive a motor vehicle upon a highway without having in his immediate possession a valid operator's or chauffeur's license issued under this Title. An operator's license authorizes the licensee to drive as an operator only. A chauffeur's license authorizes the licensee to drive as an operator or as a chauffeur.

(b) A person employed by or in the service of the United States while operating a vehicle owned or controlled by the United States need not obtain an operator's or chauffeur's license.

(c) A person having in his immediate possession a valid operator's license or chauffeur's license issued by the Republic of Palau, the Federated States of Micronesia, the Republic of the Marshall Islands, Japan, the Republic of China (Taiwan), countries of the European Union, Canada, New Zealand, the Republic of Korea, the Republic of the Philippines, or Australia may drive a motor vehicle upon the highways for a period not exceeding thirty (30) days from the date such person arrived on Guam. However, upon the expiration of such thirty (30) day period, such person must (i) have been issued a Guam driver's license in order to continue driving on Guam, and (ii) be required to take a written test, and if that person passes the written test, then a driver's license shall be issued; provided however, if such person fails the written test twice, such person shall be required to complete a driver education seminar before being allowed to retake the test, which seminar must include at least eight (8) hours of classroom instruction and four (4) hours of in-car instruction, and must pass the required road test. An individual is entitled to take a written test only three (3) times pursuant to this Subsection, and to be issued a license under this Subsection, an individual must pass both the written and the road test.

In addition, a person having in his immediate possession a temporary operator's or chauffeur's license issued under this Title may drive a motor vehicle upon the highways for a period not exceeding thirty (30) days, while the Guam Police Department is completing investigation and determination of all facts relative to the applicant's right to receive a license. Such temporary license is invalid when the applicant's license has been issued or refused.

The thirty (30) days period herein may be extended for a period equal to the earlier of one (1) year from the date the licensee arrived on Guam or the expiration date of the out-of-Guam license, provided that the licensee (i) registers his or her license with the Department of Revenue and Taxation, and

16 GCA VEHICLES
CH. 3 GENERAL PROVISIONS

(ii) pays a registration fee to the Treasurer of Guam not to exceed Twenty-five Dollars (\$25). Upon approval, the Director of Revenue and Taxation shall issue a Certificate of Registration that states (i) the name and age of the licensee, (ii) the expiration date of the Certificate, and (iii) the licensee's number as an out-of-Guam licensee.

The Department of Revenue and Taxation may withhold registration of a foreign license if (i) the Department of Revenue and Taxation cannot verify or has cause to doubt the validity of such foreign license, (ii) the licensee is unable to document the date of his entry into Guam, or (iii) the foreign license has been revoked or suspended by the jurisdiction issuing the license. The Department of Revenue and Taxation may require a prospective registrant to validate his license through passage of a written exam, road test or both.

(d) A person having in his immediate possession a valid operator's, chauffeur's *or* motorcycle operator's license issued by any other territory, Commonwealth, *or* state of the United States, may drive a motor vehicle *or* a motorcycle upon the roads and highways for a period *not exceeding* thirty (30) days from the date such person arrived on Guam. However, upon the expiration of such thirty (30) day period, such person must have been issued a Guam driver's license in order to continue driving on Guam. Such person *shall* be exempted from taking the written driver's license examination *or* demonstration test. Upon issuance of the Guam driver's license, such person *shall* surrender the driver's license previously issued by the other United States jurisdiction to the Division of Motor Vehicles of the Department of Revenue and Taxation, unless the Director of Revenue and Taxation has adopted other procedures for the disposition of the previously issued license from the other United States jurisdiction.

The thirty (30) days period herein may be extended for a period equal to the earlier of one (1) year from the date the licensee arrived on Guam *or* the expiration date of the out-of-Guam license, provided that the licensee, (i) registers his *or* her license with the Department of Revenue and Taxation; and (ii) pays a registration fee to the Treasurer of Guam *not to exceed* Twenty-five Dollars (\$25). Upon approval, the Department of Revenue and Taxation *shall* issue a Certificate of Registration that states, (i) the name and age of the licensee; (ii) the expiration date of the Certificate; and (iii) the licensee's out-of-Guam driver's licensee number.

The Department of Revenue and Taxation may withhold registration of an out-of-Guam license if, (i) the Department of Revenue and Taxation cannot

16 GCA VEHICLES

verify or has cause to doubt the validity of such out-of-Guam license; (ii) the licensee is unable to document the date of entry into Guam; or (iii) the out-of-Guam license has been revoked or suspended by the jurisdiction issuing the license. The Department of Revenue and Taxation may require a prospective registrant to validate his license through passage of a written exam, road test or both.

(e) A person having in his immediate possession an instruction permit issued under this Title may drive a motor vehicle upon the high ways for a period not exceeding ninety (90) days when accompanied by, and under the immediate supervision of, a licensed operator or chauffeur.

The Director of Revenue and Taxation may further restrict a permit to any applicant as he may determine to be appropriate to assure the safe operation of a motor vehicle by the permittee.

(f) An applicant for a license or permit shall submit an application to the Department of Revenue and Taxation on a form prescribed by it, verified under oath and containing the following information:

(1) the applicant's full name, age, sex and both mailing and residence addresses;

(8) whether the applicant has ever been afflicted with heart condition, epilepsy, paralysis, insanity or other disability or disease affecting his ability to exercise reasonable and ordinary control in operating a motor vehicle upon a highway;

An applicant for a chauffeur's license shall state the type of vehicle or combination of vehicles he desires to operate.

(g) The Department of Revenue and Taxation shall not issue any license or permit unless it determines that the applicant is lawfully qualified for a license or permit and approves the application.

(h) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this Title governing the operation of vehicles upon the highway, his understanding of traffic signs and signals, and the applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license or permit under this Title. Every applicant for a chauffeur's license shall be required to submit to an examination appropriate to the type of vehicle or combination of vehicles he desires a license to drive.

(i) An applicant is not entitled to an operator's or chauffeur's license or instruction permit:

(5) When it appears by examination or other evidence that such person is unable to safely operate a motor vehicle upon a highway because of physical or mental defect or except in the case of an applicant for an instruction permit, lack of skill. Any physical or mental defect of the applicant which in the opinion of the Director of Revenue and Taxation does not affect the applicant's ability to exercise reasonable and ordinary control in operating a motor vehicle upon the highway shall not prevent the issuance of a license or permit to the application.

(6) Who has been certified by the Department of Law as being in non-compliance with a court order of support, unless a confirmation of compliance from the Department of Law or the Superior Court of Guam is received by the Director of Revenue and Taxation.

(j) The Director of Revenue and Taxation may disapprove the application:

(1) If he is satisfied that the applicant is not entitled thereto under the provisions of this Title.

(2) If the applicant has failed to furnish the Department of Revenue and Taxation the information required in the application or any reasonable additional information requested by the Department.

CH. 3 GENERAL PROVISIONS

(3) If he determines that the applicant has made or permitted to be made, unlawful use of any operator's or chauffeur's license.

(4) If he determines that the applicant has used a false or fictitious name in any application for a license, or knowingly made a false statement or knowingly concealed a material fact or otherwise committed any fraud in any such application.

(5) If he determines that the applicant is a negligent or incompetent operator of a motor vehicle. Any person who has been convicted on four (4) or more occasions in a consecutive period of twelve (12) months, or six (6) or more occasions within a consecutive period of twenty-four (24) months, or eight (8) or more occasions within a consecutive period of thirty-six (36) months of violations of the provisions of the Vehicle Code involving the safe operation of vehicles on the highway and which are by law required to be reported to the Department of Revenue and Taxation shall prima facie be presumed to be a "negligent operator of a motor vehicle."

No license shall be valid until it has been signed by the licensee. In the case of a chauffeur's license, the license shall also state whether it is a general or restricted license, and if restricted, the type of vehicle or combination of vehicles the licensee is permitted to operate. Each license and permit shall also contain a space for common restrictive requirements such as corrective lenses, hearing aid, hand control or pedal extension, left foot accelerator, no night driving or other.

Any charge under this Subsection shall be dismissed when the person so charged produces in court an operator's or chauffeur's license duly issued to such person and valid at the time of his arrest.

16 GCA VEHICLES
CH. 3 GENERAL PROVISIONS

(m) Every operator's or chauffeur's license hereafter issued shall expire three (3) years after the first anniversary of the date of birth of any applicant occurring after the date of issuance. The anniversary of the date of birth of any applicant born on February twenty-ninth (29th) shall, for the purposes of this Section, during the years in which there is no February twenty-ninth (29th), be considered as March first (1st). Every such license shall be renewable for a like period within ninety (90) days prior to its expiration. Any license that would otherwise expire on a Saturday or legal holiday shall be valid until the next business day. An applicant for renewal of license shall make application therefor in the same manner as in the case of an original application for a license upon such form as may be required. The Director of Revenue and Taxation at his discretion may require an examination of the applicant as upon an original application. To the extent its facilities permit, the Department of Revenue and Taxation shall, in the course of its investigation, check the record of the applicant for convictions for traffic violations and traffic accidents, and may withhold or refuse certification of eligibility for a license or renewal of a license unless satisfied upon reasonable proof that the applicant can and will operate a motor vehicle safely.

(n) In the event a license or permit issued under this Title is lost, destroyed or mutilated, the licensee or permittee may obtain a duplicate from the Department of Revenue and Taxation upon making satisfactory proof of such fact. Any person who loses a license or permit and thereafter finds the original must immediately surrender such original to the Department of Revenue and Taxation.

(o) After passing an examination as required under Subsection (g) to include an actual demonstration of ability to exercise ordinary and reasonable control in the operation of a motorcycle, *or* upon qualifying under subsection (d) of this Section an applicant may have his operator's, or chauffeur's *or* motorcycle permit endorsed by the Director of Revenue and Taxation, *or* his designee, authorizing the applicant to operate a motorcycle on the highways of Guam. The Director of Revenue and Taxation may, in his discretion, accept evidence of a military motorcycle permit in lieu of this examination and endorsement. *No person shall* operate a motorcycle on the highway without first complying with this Section *except* that a person having in his immediate possession a valid motorcycle operator's license issued by any other territory *or* state of the United States, *or* by a foreign country, may operate a motorcycle upon the highways for a period *not* exceeding thirty (30) days from the date such person arrived in Guam. The requirement that the person pass an

Section 1. **(a) Legislative findings.** The Legislature finds that the diverse ethnic makeup of the territory of Guam has resulted in many people who wish to drive having had difficulty obtaining driver's licenses from the Division of Motor Vehicles because of their lack of English language skills. In the past, the Motor Vehicle Division personnel have allowed applicants to use translators. This system, which has not been successful in other jurisdictions, is not reliable. California has translated the driver's examination into several languages and has included all requested language translations in its computer data bank. The Department of Revenue and Taxation, Division of Motor Vehicles, is computerized now and has the same

§ 31A00. Legislative Findings and Intent.

I Liheslaturan Guðhan [The Legislature] finds momentum continues to build for the adoption of graduated driver licensing systems. Recent releases from the National Highway Traffic Safety Administration ('NHTSA') and the National Transportation Safety Board ('NTSB') clearly indicate that their programs will emphasize graduated licensing as a measure to improve traffic safety for new drivers and drivers who are under the age of twenty-one (21).

The NHTSA encourages states to implement a graduated driver licensing system to ease young drivers and new drivers into the driving environment through more controlled exposure to progressively more difficult driving experiences or driver licensing stages, prior to full licensure.

Authorities attribute the problems of new drivers, especially younger drivers, to inexperience and inadequate driving skills, excessive driving during high risk hours - especially nighttime, risk-taking, poor judgment and poor decision making. It also is believed that considerable experience is required,

16 GCA VEHICLES
CH. 3 GENERAL PROVISIONS

after initial licensing, before a new driver achieves dependable driving know-how, skill and judgment.

To address these problems, NHTSA and the American Association of Motor Vehicle Administrators ('AAMVA') developed an entry-level driver licensing system. It consists of three (3) distinct stages, named by the type of license possessed at each stage: learner's permit, intermediate (provisional) license, and full license. Young drivers are required to demonstrate responsible driving behavior in each stage of licensing before advancing to the next. This legislation is modeled after those recommendations.

In recent years graduated and provisional licensing laws have been enacted in several States and the trend is continuing. Several other States have introduced legislation to implement graduated licensing requirements. To be effective, graduated licensing must be coordinated with driver education. Graduated licensing, in combination with improved driver education, holds promise as a way to provide positive incentives for new drivers to drive safely.

It is the intent of I Liheslaturan Guåhan to implement Graduated Drivers Licensing for Guam for all new licensees obtaining a drivers license after June 30, 2000. In doing so I Liheslaturan Guåhan affirms that a driver's license is a privilege, not a right and such privilege, for the safety of all who use our roadways should only be extended through demonstrated driving experience.

§ 31A01. Effective Date.

The Graduated Licensing requirements of this Article shall be effective on June 30, 2000.

§ 31A02. Definitions.

Definitions as used in this Article include:

(a) 'Zero Tolerance' for Alcohol means a Blood Alcohol Content ('BAC') of 0.02 percent or less while driving. Although an alcohol free driver is desirable, 0.02% BAC is the accepted level required by the National Highway Traffic Safety Administration to account for certain medical conditions, such as certain forms of diabetes mellitus in which the bodies of some individuals afflicted with this disease may naturally produce small quantities of alcohol during the metabolism of carbohydrates.

(b) 'BAC' means Blood Alcohol Content.

16 GCA VEHICLES
CH. 3 GENERAL PROVISIONS

(c) '*Drivers Education*' means a course of instruction approved by the Director of the Department of Revenue and Taxation for the purpose of providing prospective licensed drivers with a general knowledge of traffic laws, motor vehicle safety and safe operation of a motor vehicle.

(2) holders of a driver's license issued by another state, territory or country who have at least five (5) years of driving experience as a licensed driver; or

(3) driver's license holders serving on active duty in any branch of the United States Armed Forces who possess a driver's license issued by another state or territory of the United States.

(b) This Section does not apply to any current reciprocity agreements in effect between other states and territories and Guam prior to the enactment of this Section.

(c) All individuals possessing a learner's permit on June 30, 2000, shall be required to complete the licensing requirements of this Article. All license holders under the age of eighteen (18) on June 30, 2000 shall retain their full licensure privileges.
