2015

A USEFUL RESOURCE

For our island's changing times

Hafa Adai! Congratulations to the Bureau of Statistics and Plans on the completion of the 2014 Statistical Yearbook! This is an invaluable resource that will help us develop strategies to improve the quality of life on our island.

In calendar year 2014, we saw employment numbers increase, unemployment numbers decrease, tourism numbers soar, and GDP numbers maintain steady growth. We are working to improve our government and prepare our island so we can be ready to take advantage of the new opportunities that we anticipate in the coming years. Already, we have seen the world's eye focus on Guam – whether they watched as our soccer team excelled, listened to discussions during the World Health Organization Western Pacific Regional Conference or TransPacific Partnership talks, or watched our economy's remarkable turn-around or anticipated military buildup.

In the coming year, we have more opportunities for growth. The Pacific Asia Travel Association (PATA) summit and the Olympics of cultural arts in the Pacific – Festival of Pacific Arts – both will be held on Guam in 2016. We also continue our efforts to beautify our island, which also means protecting our natural resources, such as our coral reefs.

We continue to mature as a people and government. We have seen what we are capable of and we have realized that we are able to achieve more than we have given ourselves credit for in the past. The Imagine Guam initiative will help us navigate our way into a future. Data, provided in this yearbook by the hardworking people of BSP, is something that will help us mark our progress. The information can help illustrate those areas where we have failed. We'll also see where we have succeeded and by what margins, and even, perhaps just as importantly, what that success cost us.

We applaud the staff and management at BSP for their dedication to our island in documenting Guam's progress. Year after year, BSP makes this publication possible. It is a resource tool that has helped educate our community. And as we look forward to a new year, filled with more opportunities and growth,

Un Dangkolo Na Si Yu'os Ma'ase for your commitment to Guam,

EDDIE BAZA CALVO

RAY TENORIO

Director

Message from the Director

Buenas yan Hafa Adai!

Guam experienced steady economic growth in 2014 due to strong visitor arrivals, improved job opportunities, increased private sector investments and consumer spending.

As part of our commitment to providing our community and stakeholders with valuable information, on behalf of the Bureau of Statistics and Plans, I am pleased to release the “2014 Guam Statistical Yearbook”. It is my hope that you may use the information in support of Guam’s community program initiatives as well as further stimulate economic growth and development.

The yearbook is a resource publication that provides current and historical socio-economic information relative to Guam’s economic condition and performance over time. The data in this report may provide information in support of research, planning and for the improvement of programs and services. The intent is that the yearbook may serve as a resource tool to best inform immediate and long term strategies designed to improve the quality of life for the people of Guam.

My gratitude is extended to the many government of Guam agencies and organizations for their valuable contributions to the publication. Special thanks is also extended to the staff and management of the Bureau of Statistics and Plans for their continued hard work, dedication, and commitment in producing the yearbook.

I trust that you will find this document useful in meeting your research and planning needs now and in the years to come.

Dangkulu Na Si Yu’os Ma’ase’,

WILLIAM M. CASTRO
Director

2014 Guam Statistical Yearbook

Voting Members:

	<u>Term</u>	
Peter Alecxis D. Ada	2015 - Jan 2016	(Elected)
Lourdes M. Benavente	2015 - Jan 2016	(Elected)
Jose Q. Cruz, Ed.D.	2015 - Jan 2016	(Elected)
Mrua A, Gutierrez	2015 - Jan 2016	(Elected)
Albert T. San Agustin	2015 - Jan 2016	(Elected)
Lourdes M. Benavente	2015 - Jan 2016	(Elected)
Kenneth P. Chargualaf	2014 - Jan 2017	Retired School Administrators Representative (Appointed)
Charlene D. Concepcion	2014 - Jan 2017	Parent Representative (Appointed)
Ryan F. Torres	2015 - Jan 2018	Business Sector Representative (Appointed)

Ex-Officio (Non-Voting) Members:

Joshua Zamora		President, Island-wide Board of Governing Students
Doris A. Terlaje		Guam Federation of Teachers Representative
Mayor, Rudy Matanane	Jul 2014- Jul 2016	Mayors' Council of Guam Representative

Other:

Jon J.P. Fernandez		Superintendent of Education and Executive Secretary to the Board
Leilani M.B. Cruz		Administrative Officer

Guam's Political Leaders, Past and Present

Elected Governors and Lt. Governors of Guam

	Term
Governor Edward J.B. Calvo and Lt. Governor Ray Tenorio - [Republican]	2015 - 2018
Governor Edward J.B. Calvo and Lt. Governor Ray Tenorio - [Republican]	2011 - 2014
Governor Felix P. Camacho and Lt. Governor Michael W. Cruz, M.D. - [Republican]	2007 - 2010
Governor Felix P. Camacho and Lt. Governor Kaleo S. Moylan - [Republican]	2003 - 2006
Governor Carl T.C. Gutierrez and Lt. Governor Madeleine Z. Bordallo - [Democrat]	1995 - 2002
Governor Joseph F. Ada and Lt. Governor Frank F. Blas - [Republican]	1987 - 1994
Governor Ricardo J. Bordallo and Lt. Governor Edward D. Reyes - [Democrat]	1983 - 1986
Governor Paul M. Calvo and Lt. Governor Joseph F. Ada - [Republican]	1979 - 1982
Governor Ricardo J. Bordallo and Lt. Governor Rudolph G. Sablan - [Democrat]	1975 - 1978
Governor Carlos G. Camacho and Lt. Governor Kurt S. Moylan - [Republican]	1971 - 1974

Appointed Civilian Governors

Governor Carlos G. Camacho - [Republican]	July 1969 to January 1970
Governor Manuel F.L. Guerrero	March 1963 to July 1969
Governor Bill Daniel - [Democrat]	May 1961 to March 1963
Governor Joseph Flores - [Republican]	July 1960 to May 1961
Governor Richard Barrett Lowe - [Republican]	October 1956 to November 1959
Governor Ford Q. Elvidge - [Republican]	March 1953 to June 1956
Governor Carlton Skinner - [Democrat]	September 1949 to February 1953

Military Commanders and Governors of Mariana Islands

Administrador de Hacienda D. Felix Calvo	April 7, 1848
Sargento Mayor/Lt Colonel D. Gregorio de Santa Maria	1848
Capt. D. Francisco Ramon de Villalobos	September 26, 1831
Lt. Colonel D. Jose de Medinilla y Pineda	August 15, 1822

GUAM ECONOMIC OUTLOOK

Economic Outlook

Governor's Executive Budget 2016
Submitted to the 33rd Guam Legislature

SUMMARY

The state of the economy of Guam is forecast to demonstrate continuation of a moderate expansionary trend with likely acceleration in FY 2016.

Continued expansion of the number of arriving tourists and expenditures; America's rebalancing of its strategic focus and defense posture toward the Pacific; increased investment in and construction of defense facilities, commercial, public utilities and infrastructure provide the foundation for this forecast. The cumulative effect of positive trends in the major drivers of Guam's economy, tourism, defense, local and federal government and construction, reinforced by reduced energy costs, should increasingly propel heightened economic activity.

TOURISM

the percent of visitors from Japan dropped to 59.5% of the total for Guam, down from 67% as recently as CY 2013. Fortunately, increases from other markets, primarily South Korea, with similar visitor expenditure profiles, offset this decline.

The weak economic recovery in Japan and a rapidly depreciating Yen have adversely affected both the number of Japanese arrivals and their expenditures. The U.S. Dollar as of October 7, 2012, would buy 78.28 Yen; by May 26, 2013, it was up to 102.03; as of January 26, 2015, it reached 118. From the Japanese perspective, the price of the U.S. Dollar increased by 50% during this period of a little over three years. Goldman Sachs forecast the Yen to depreciate further to 130 to the U.S. Dollar by the end of 2015 and 135 by the end of 2016. The upside of the devalued Yen is that it promotes exports from Japan, creating greater economic activity which will yield higher personal and corporate income for discretionary travel. A stronger Dollar relative to the Yen will lower the cost of Japanese goods imported to Guam. The Japan Consumption Tax increased from five to eight percent in April 2014, which could also explain some of the weakness in the Japan outbound markets.

The increase in arrivals from China is facilitated by United Airlines twice-a-week nonstop service between Guam and Shanghai, inaugurated October 28, 2014. A further boost was provided to China tourism when President Obama announced at the APEC summit in Beijing on November 10, 2014, that the U.S. and China have mutually agreed to increase business and tourist visa validity from one to ten years, and student and exchange visa validity to five years.

Continued expansion in arrivals also got a boost with Jin Air's upgrade to wide-body B777-200ER aircraft which can accommodate 355 people on its Incheon-Guam route beginning December 12, 2014. The Yonhap News Agency in a November 11, 2014, story reported that, "This translates into Jin Air being able to provide 18,105 seats on the route per year, or an increase of around 230 percent vis-à-vis 5,490 seats at present."

The Russian market was Guam's fastest growing last year due to the implementation of a Homeland Security parole authority in early 2012, but has recently become the fastest declining sector. A combination of recently deteriorating economic conditions for Russia include economic sanctions, a plunging currency, a credit rating lowered to junk by S&P and oil prices falling from over \$100 a barrel to around \$45. Russia's budget assumed oil would trade above \$100 this year and over half of the government's revenue comes from oil and gas exports, according to a January 26, 2015, CNNMoney report. To make matters worse for Russian travel to Guam, all direct charter flights were cancelled in August 2014, although Guam can be accessed via other connecting cities. Charter flights are scheduled to resume in early February 2015 on a limited schedule.

The FY 2014 weighted average hotel occupancy rate provided by the Guam Hotel and Restaurant Association was 77 percent, nearing the annual high rate of 85 percent occupancy. High occupancy rates are associated with higher average room rates. Increased room rates contributed significantly to the increased revenue from the visitor industry in 2014. The weighted average year-to-date hotel rate was \$150 as of September 30, 2014, up from \$134 for the comparable period in 2013 and \$123 for 2012. This represents an 11 percent increase in the latest year and a cumulative increase of 22 percent over the latest two year period. Further increases in the number of tourists are likely to generate additional hotel revenues from both higher occupancy levels as well as higher room rates as the demand exceeds the supply during some time periods. The higher occupancies are likely to constrain increasing arrivals in the short term, but the increased profitability should encourage capacity expansion.

The Dusit Thani Hotel is currently under construction and is adding a new tower and other facilities adjacent to the Outrigger Guam Resort. The hotel property will include a convention center, 417 rooms on 30 floors, private bungalows and world class restaurants. Its opening has been delayed from original plans and it is expected to open in 2015. Ken Corporation has announced plans to build a new \$120 million hotel with 348 rooms next to the Lotte Hotel on Tumon Bay with completion in 2018. Work on the project is scheduled to commence this year.

Hotel expansion is further being promoted as Governor Calvo signed into law Bill 146, which encourages the development of 1,600 new hotel rooms through the issuance of special qualifying certificates to hotel developers.

ENERGY PRICES

The recent dramatic drop in prices of petroleum products will have significant effects on the Guam economy in 2015 and 2016. Lower prices will benefit consumers and island businesses with lower prices for gasoline and electricity. Both air and shipping transportation costs will also decline. A Marianas Business Journal story reported that Matson Inc. announced on January 26, 2015, “that it will be lowering its fuel surcharge by four percentage points for its Guam services as a result of recent declines in bunker fuel prices”... “This marks the third consecutive decrease Matson has made to its Guam/NMI and Hawaii fuel surcharges, which have dropped 11 percentage points since Nov. 2...it represents a reduction in shipping costs of \$80 to \$140 per container for most customers.”

A Bloomberg news report indicated that fuel is typically the largest expense for airlines, accounting for as much as one-third of total operating costs. The market price of aviation fuel has fallen 45 percent since last September, according to consumer expert Nick Trend. While airlines may try to retain some of the cost savings, market forces and governments requirements will eventually force airlines to pass some of the savings on to consumers. Virgin Australia and Qantas have taken the lead and announced a drop in air fares to keep them in line with falling oil prices. Cebu Pacific and Philippine Air Lines (PAL) will both eliminate the fuel surcharge as the Philippine Civil Aeronautics Board (CAB) stated that no fuel surcharge shall be collected from tickets sold from January 8, 2015, onward. The Philippine Daily Inquirer reported that the CAB made a decision to remove the surcharge on fuel for “all international and domestic airlines with operations in the Philippines, effective immediately.” Japan Airlines has announced that it intends to lower fuel surcharges on tickets issued on or after February 1, 2015.

The cost of producing goods manufactured with petroleum products such as plastics and an array of other commodities such as food will also decline due to lower fuel and fertilizer costs. Inflation on Guam, at 1.8 percent for the latest year ending December 2014, as in the U.S., has been low in recent years; reduced fuel costs will contribute significantly to maintaining low inflation rates which will mitigate a decline in consumer purchasing power. Low inflation combined with increased personal earnings attributed to increases in the Federal and Government of Guam pay scales, as well as an increase in the minimum wage, will provide consumers with increased buying power. The U.S. Energy Information Administration (EIA) in a January 13, 2015, release provides information on the current and future price outlook for 2015 and 2016. The release states:

U.S. average regular gasoline retail prices fell from a monthly average of \$3.69/gal in June to \$2.54/gal in December, the lowest monthly average since July 2009. EIA expects that U.S. regular gasoline retail prices will fall to an average of \$2.13/gal in January 2015. It is projected to average \$2.33/gal in 2015, and \$2.72 a gallon in 2016.

In percentage terms, EIA projects that gasoline prices will be about 31 percent lower in 2015 than 2014 and will increase in 2016, but still remain about 20 percent below 2014 prices. A Guam Energy Office report of actual fuel sales by petroleum companies indicates annual sales of petroleum including gasoline, diesel oil and propane to be approximately 66 million gallons on Guam. A price decrease averaging \$1.50 per gallon would save the island economy about \$100 million annually. If a conservative revenue multiplier of 1.5 was applied to this savings, it would total \$150 million annually, about three percent of Guam's 2013 Gross Domestic Product. This calculation excludes jet fuel, which would further contribute, but much of the savings from jet fuel would benefit airlines and tourists rather than residents directly. Nevertheless, lower fuel costs will result in airfare savings, some of which will be passed on to consumers, promoting increased tourism, which is price-sensitive to airfares.

Lower energy prices will act as a significant stimulus to economies that are net petroleum importers. The flows of funds leaving the economies to pay for petroleum imports will be slashed, leaving them to recirculate within the respective economies and leading to higher proportions of total spending being redirected within the economy to areas such as retailers of consumer goods. Economies benefiting from the price drop include Guam and the Asian economies that are the source of Guam tourism; namely, Japan, Korea, Taiwan, Hong Kong and China, which are all net petroleum importers.

FEDERAL GOVERNMENT EXPENDITURES

Federal expenditures constitute one of the major flows of funds to Guam (along with tourism). Federal expenditures are comprised of defense and non-defense categories. The defense category is likely to increase due to the emphasis on expanding U.S. Armed Services capacities on Guam, with substantial military construction projects and in preparation for the relocation of Marines from Okinawa to Guam. The increase in military construction project appropriations is shown in Chart 2. The FY 2016 budget to be released in 2015 will provide a clearer idea of what projects and expenditures are planned for the nation as well as for Guam.

CONSTRUCTION

Construction activity is quite cyclical in nature relying on investment and appropriations largely external to the Guam economy, as such, substantial changes in the level of construction activity can occur from year to year. Also, the level of construction activity serves as a leading indicator of future business and employment activity which will commence when the new facilities are completed. A short term leading indicator of future construction activity is the value of building permits and construction contracts awarded. Following the issuance of building permits and construction contracts, a generally corresponding level of construction activity occurs. In periods with high Dollar amounts of permits and contracts, high levels of construction will follow. Building permit information from the Department of Public Works (DPW) shows a general trend of increasing permit Dollar value totals. In CY 2010 the value of building permits issued was \$184.8 million; this increased to \$211.1 million in CY 2011 and further to \$364.5 million in CY 2012, then to \$449.1 million in CY 2013, the highest level of permits in 19 years. It remained high in CY 2014 at \$308.5 million, although well below CY 2013.

The CY 2014 decline in building permits was more than offset by an increase in Department of Defense construction contract awards. Construction projects on U.S. military bases do not obtain building permits from DPW. For DOD projects, the level of future construction can be projected based on construction contracts. The trend in DOD construction contracts has been generally increasing over the last decade, although with substantial variations on a year-to-year basis. See Chart 1 below which shows total permits and contracts of \$624 million in 2014. This is the second highest level since 1991. The increase in construction projects permitted and awarded in CY 2014 is expected to drive a moderate increase in construction activity and employment in 2015 and 2016.

Chart 1
BUILDING PERMITS AND CONSTRUCTION CONTRACTS (in thousands)

Calendar Year:	2009	2010	2011	2012	2013	2014
Building Permits	299,057	184,337	211,097	364,504	449,147	308,451
U.S. Military Construction Contracts	148,823	370,413	334,597	152,095	88,001	261,234
Japan Funded Military Contracts			89,720 ¹			44,500 ¹
TOTAL	447,880	555,250	635,414	516,599	537,148	614,185

¹ Note: Budgeted amount. The full amount of MACC indefinite contracts is not recorded in the above figures, only task orders for specific projects.

Building permits and construction contract data provide the most immediate leading indicator of construction in the following year or two. For a somewhat longer period, leading information on upcoming projects which have not yet been permitted or contracted but are likely to proceed is provided in appropriations and other funding information. Obtaining the funding for construction projects is an activity that occurs prior to a building permit being issued or a construction contract being awarded.

Prior to FY 2010, there was a close relationship between the level of military construction appropriations and the level of contract awards that followed generally within a year. Since FY 2010, some appropriations related to the Marine Corps relocation were restricted by law until additional plans and studies were submitted to the U.S. Congress. The appropriations for military construction from the U.S. government and the government of Japan increased steadily each year from FY 2008 through FY 2010 reaching a peak of just over \$1.2 billion. The totals dropped off dramatically from FY 2011, rebounded in FY 2014, but dropped again in FY 2015. Contracted amounts were well below the appropriated amounts, leaving approximately \$1.4 billion of the \$1.5 billion in appropriations from Japan available. The second Japan funded contract was awarded in 2014 based on a statutory exemption from the hold placed on the expenditure of Japan funds. This hold was lifted in the 2015 National Defense Authorization Act, making the remaining appropriated Japan funds

available for contracting. The previous plans to award a Multiple Award Construction Contract (MACC) for Japan funds, which was open for bids, extended and finally cancelled, is no longer planned to be the contracting mechanism. This change removes an administrative contracting process which could have further delayed the contracts for Japan funds. Japan funded DOD projects are expected to be contracted under the existing MACC contract authorizations.

According to an information statement provided by Congresswoman Bordallo:

“On April 18, 2014, the Department of the Navy published the Draft Supplemental Environmental Impact Statement (SEIS). The Draft SEIS assesses the potential environmental impacts of establishing a cantonment facility with family housing and live-fire training range complex in support of the relocation of approximately 5,000 Marines and 1,300 family members from Okinawa, Japan to Guam. A final decision will not be made until a Final SEIS is completed early next year. A record of Decision between the Department of the Navy and the Government of Guam will also be issued in 2015.”

The largest projects currently under construction on Guam, excluding those on military bases, include the Guam Regional Medical City Hospital in Dededo, the \$60 million Dusit Thani Hotel project in Tumon, and a \$50 million defense funded port modernization project. Construction of the University of Guam’s Student Services Center and Engineering Annex will start in 2015. Once completed, the latter will enable a School of Engineering on Guam.

The available funding indicates that an increase construction activity on Guam is likely to occur beginning in late 2014 and 2015. Appropriations are a very strong indicator of future activity, but actual construction may differ from the appropriated amounts and time schedules. An analysis of the FY 2010 defense appropriations for construction found the lag from the time of appropriations to contracting ranges from about five to eleven months, with construction averaging about two years for most projects and three years for major projects. It also found that not all of the appropriations were contracted, and some contracts were awarded below the appropriation amounts. The new funding made available for construction, with the combination of bond issuance, U.S. appropriations and released Japan appropriations, is close to \$2 billion Dollars. The new projects will increase the total amount of construction on Guam, but much of the new project activity will be to replace the current major projects which have been or will soon be completed, including the Navy Hospital, the Guam Regional Medical City and the Dusit Thani Hotel. The impact on the level of economic activity and revenues for FY 2016 will be highly dependent on the timing of the commencement of these projects, and projects started in 2016 will have only a partial year economic impact.

Chart 2							
APPROPRIATIONS (in thousands)							
Fiscal Year (FY):	2009	2010	2011	2012	2013	2014	2015

DOD Civilian Guam Infrastructure						119,400	
Japan - Fiscal Year (JFY):	336,000	500,000	582,000	93,000			
Combined:	<u>516,000</u>	<u>1,237,654</u>	<u>758,030</u>	<u>176,600</u>	101,904	614,007	162,451

PUBLIC FINANCING AND INFRASTRUCTURE

A leading indicator of Federal construction is contained in the appropriations. For the Government of Guam, a leading indicator of future construction is the availability of funds, realized from revenue bonds and other sources. Over a quarter of a billion dollars have been realized from the sale of revenue bonds in 2013 and 2014 and is available; additional projects are planned for future bond and loan financing.

Chart 3 - Government of Guam	
LIST OF PLANNED MAJOR CONSTRUCTION PROJECTS AND FUNDING SOURCES	
Planned Projects - Funds Available	Amount
Guam Waterworks Authority (GWA)	139,280,961
Guam Legislature Building	4,000,000
Port Authority of Guam (PAG)	10,000,000
Guam Int'l Airport Authority (GIAA) - Airport A	13,000,000
Guam Int'l Airport Authority (GIAA) - Airport B	96,710,000
Guam Power Authority (GPA)	76,470,000
Subtotal	339,460,961
Planned Projects - Bond/Loan Financing Proposed	
Department of Land Management	15,750,000
University of Guam (UOG)	21,700,000
Guam Community College (GCC)	6,000,000
Guam Waterworks Authority (GWA)	258,000,000
Guam Public Infrastructure Projects (DOD requested)	400,000,000
Subtotal	701,450,000
TOTAL	1,040,910,961

NEW EMPLOYERS AND EMPLOYMENT

In addition to the recent reopening of the former Aurora Resort, originally the Guam Okura Hotel, as the Lotte Hotel Guam in 2014, the planned opening of the Dusit Thani Hotel in 2015 will create about 150-200 new hotel jobs. The opening of the Regional Medical City, scheduled for 2015, and a new Harmon clinic will create hundreds of jobs in the medical sector. Increased employment in the restaurant business has occurred with the recent opening of the first of two Applebee's Neighborhood

Grill and Bar restaurants and a Jack in the Box co-located with a new Shell Gas Station. A Burger King restaurant on Marine Corps drive in Hagatna is under construction. A Boston Pizza Co., as well as a Dolce Frutti is being located next to the Applebee's and GPO. The opening of the first of two planned L & L Hawaiian Barbecue restaurants occurred in October 2014 and the first of three International House of Pancakes opening in mid-2015 will continue to expand the industry, increase employment and expand dining choices as well. In the retail sector, Forever 21, an American fashion retail chain, will open its first store in Guam in the first quarter of 2015.

ECONOMIC INDICATORS

Guam's Gross Domestic Product (GDP) increased in nominal terms by 2.6 percent in CY 2013 from CY 2012 reaching \$4.9 billion. In real terms, it increased by 0.6 percent after adjusting for inflation. Per capita real GDP, accounting for inflation and population growth, shows an increase of 0.3 percent, to \$25,852. Total employment increased by 1.2 percent from 61,740 in September 2013 to 62,480 in September 2014. Visitor arrivals increased by 0.6 percent from CY 2013 to CY 2014, reaching 1.34 million. Hotel Occupancy taxes, a proxy of visitor expenditures, increased by 12.0 percent from FY 2013 to FY 2014, driven by a combination of higher room rates and higher hotel occupancy rates. The Draft Consolidated Revenue/Expenditure report for September 2014 shows general fund gross receipts increased by 7.0 percent from FY 2013 to FY 2014, and general fund revenue increased by \$80.0 million or 11.6 percent (excluding provisions for refunds) in a comparison of the latest two fiscal years. The actual FY 2014 collections exceeded the adopted budget revenue by \$44.0 million, or 6.0 percent. The increasing revenue trend continued in the first quarter of FY 2015, in which general fund revenue increased by 7.8 percent, or \$13.0 million dollars, over the first quarter of FY 2014.

Data are based on a sample and are subject to sampling variability (one year estimate).

Chamorros = Guamanian or Chamorro alone

NOTE 1: "Other States" -- data can not be displayed because the number of sample cases is too small.

NOTE 2: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 114,464 persons in 2010.

NOTE 3: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 107,573 persons in 2011.

NOTE 4: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 130,223 persons in 2012.

NOTE 5: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 120,706 persons in 2013.

NOTE 6: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 133,569 persons in 2014.

Grant Year	Agency	Project	Total Grant
FY 2003	DOE	School Repair and Equipment	700,000
	DOE	Match for FEMA Category E Projects	300,000
	DPW	School Buses	1,500,000
	GFD	Fire Trucks (project combined with 2002 funds)	638,000
	GMHA	Facility Repair and Equipment	1,355,000
	GPD	Police Vehicles	1,080,000
		Subtotal	\$5,573,000
FY 2002	DPW	Elevator and Air Conditioners at DMHSA	200,000
	DPW	School Buses	1,300,000
	DPW	Agana Heights Gym Resurfacing	28,750
	DPW	Road Projects	2,749,000
	DPW	DOE Water Tanks	1,000,000
	DPW	Tumon Police Precinct Supplement	90,000
	GFD	Ambulances	781,000
	GFD	Fire Trucks	112,000
	DOC	Fire Alarm and Sprinkler System	119,250
		Subtotal	\$6,380,000
FY 2001	DPW	Road Improvement	6,800,000
	DPW	Library Renovation and Repair	100,000
	GFD	Emergency Vehicle Repair	75,000
	GFD	Ambulances	219,000
	GMH	Equipment Radiology/Orthopedic	1,125,000
	GWA	Water Meters	750,000
	GWA	Waterline Replacement	500,000
		Subtotal	\$9,569,000
FY 2000	DPW	Road Projects Phase 1	1,950,000
	GMH	Equipment	2,000,000
	GMH	Equipment Radiology/Orthopedic	575,000
	GWA	Vehicle and Equipment Project	1,455,000
	GWA	Water Project Tract 10432 and 10433	850,000
	GWA	Waterline Extension Capital Equipment	500,000
	GWA	Pipes and Valves	250,000
		Subtotal	\$7,580,000
FY 1999	DOA	Financial Management System Phase II	2,150,000
	DOA/BOP	Y2K Compliance Project	350,000
	DPW	Windward Hills Waterline	700,000
	DPW	Road Projects	510,000
	GFD	Ambulances	750,000
	GWA	Vehicle and Equipment Project	45,000
KGTF	Tower Project	75,000	
		Subtotal	\$4,580,000

Source: Catholic Education Office; Department of Defense Education Activity (DoDEA); Other Private Schools and Guam Department of Education, Government of Guam

1/ Pacific Christian Academy closed SY2010-SY2011.

2/ Total does not include one school in Other Private Schools due to failure to report. [SY2009-2010]

3/ Catholic Schools includes Dominican Child Development School; Infant of Prague Nursery & Kindergarten; Maria Artero; Mercy Heights; Bishop Baumgartner; Dominican Catholic School; Our Lady of Mount Carmel; Saint Anthony; Santa Barbara; Saint Francis; San Vicente; Academy of Our Lady; Father Duenas; Notre Dame; and Saint Thomas Aquinas.

4/ Department of Defense Education Activity

5/ Other Private Schools includes Asmyayao Community School, Evangelical Christian Academy, Guam Adventist Academy, Guam International Christian Academy, Harvest Christian Academy, Pacific Christian Academy, Saint Paul Christian School, Southern Christian Academy, St. John's School, Tamuning Christian Academy, Temple Baptist Christian School, and Trinity Christian School.

6/ Cohort Graduation Rate: Based on the capability of tracking the high school experience of each member of the ninth grade cohort. After four years of high school, each member of the ninth grade cohort is identified as either a) a graduate; b) still in school; c) a transfer d) a dropout; or e) a withdrawal due to illness or death. A four year cohort graduation rate may then be calculated by dividing the number of cohort graduates after four years of high school by the total 9th grade cohort less the number of transfers and the number of students that withdrew during the four years due to illness or death.

7/ Private School Graduates includes Catholic Schools, DoDEA, and Other Private Schools Graduates.

Note: Guahan Charter Academy opened doors on SY 2013-2014

1/ Includes Substitute teachers, as well as Guidance Counselors and Librarians who are categorized as Teachers.

2/ Includes LPN's

3/ Includes School Aides, Head Start Aides and other special program aides.

4/ Employee Code not specified due to exiting the department during the school year.

The symbol "-" does not necessarily depict 0 for the ethnic group; the information was grouped as Asian or Pacific Islander and placed under the category Other.

5/ SY 2014-2015, Cafeteria employees were combined with Custodial/Maintenance.

*Beginning SY14-15, the employee categorization follows the EDFacts categories as defined in NCES N501 File Specification.

This is to ensure that local and federal reports align.

Source: Guam Bankers Association

1/ Excludes Credit Union Banking Institutions.

2/ Consumer Loans include Credit cards, personal loans, automobile loans etc.

3/ Commercial Loans include both commercial real estate loans, e., commercial mortgages, other business loans and loans to the government, which are not accounted for elsewhere and mortgage loans for dwellings with four or fewer housing units, e.g., quad-plexes or less.

4/ Real Estate Loans includes both loans retained on the institution's books and loans that are sold to third parties.

Note: "Other" loans, which are primarily the temporary loans provided to good customers when they accidentally and infrequently overdraw their depository accounts, and are not reported to the Bankers Association; that data would be available in reports provided to the FDIC (for the seven insured banks) and to the Guam Banking Commission at the Department of Revenue and Taxation.

Includes mortgage loans sold to the Federal Home Loan Mortgage Corporation "Freddie Mac" or the Federal National Mortgage Association "Fannie Mae", as well as commercial loans that have been sold, in whole or in part to other banks, but are still serviced by Guam banks.

Aggregated data are provided by the following banks: Allied Banking Corp., ANZ Bank, Bank of Guam, Bank of Hawaii, BankPacific, CitiBank, First Commercial Bank, First Hawaiian Bank, Citizens Security Bank, Metro Bank & Trust Co., and Oceanic Bank.

Accident/Emergency Attendances ^{3/}	138	494	561	485	662	590

Source: Guam Memorial Hospital Authority and Department of Public Health and Social Services, Government of Guam

Note: Inpatient is a person who is admitted to hospital for medical, surgical or obstetric treatment, observation or care and stays at least one night. Includes persons if formally admitted by the hospital as "boarders", and patients who die in hospital or are transferred to another hospital on the day of admission. Day patient is a person who is admitted and discharged on the same day. Day patients do not include those patients who died in the hospital or transferred to another hospital.

1/ Beds decreased due to Typhoon Pongsona in December 2002 and the renovation in 2012.

2/ Includes licensed military physicians working part-time at Guam Memorial Hospital.

3/ Data is only from October 2013 to February 2014 due to GMHA switched to a new information system and have been working on fixing issues.

Table 12-03 . Number of Inpatients by Type of Treatment at Guam Memorial Hospital, Guam: Fiscal Years 2009 to 2014

Type of Treatment	2014	2013	2012	2011	2010	2009

Assault	23	9	7	7	9	5
Other not specified	5,340	2,973	2,939	2,316	3,025	3,196

Source: Guam Memorial Hospital Authority, Government of Guam

Note: The disparity in the data trend from previous FYs compared to FY 2014 is due to the old GMHA Patient Information System extracting duplicated accounts (i.e. interim accounts, more than 1 bill number for same inpatient visit, etc.). The new system has addressed this issue as reflected in the FY 2014 data.

Definitions:

- 1/ Child Abuse and Neglect: Any recent act or failure to act on the part of a parent or caretaker which results in death or serious physical or emotional sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
- 2/ Physical Abuse: Non-accidental injury of a child or punching, beating, kicking, biting, burning, shaking, otherwise harming a child.
- 3/ Emotional Abuse: Patterns of behavior that attacks a child's emotional development and sense of self worth; name calling, blaming, belittling, terrorizing, humiliation and rejection.
- 4/ Sexual Abuse: Any act of a sexual nature upon or with a child; Fondling a child's genitals, intercourse, incest, rape sodomy, adult showing his or her genital area (indecent exposure), exposure to pornographic materials and commercial exploitation through prostitution or the production or the of pornographic materials.
- 5/ Physical Neglect: Purposely failure to act on behalf of a child or to provide adequately for a child; refusal of or delay in seeking health care (medical attention), abandonment, expulsion from the home, inadequate supervision (lack of adult supervision); failure to enroll a child of mandatory school age in school (educational neglect); or failure to attend to a special education need and chronic truancy.
- 6/ Emotional Neglect: Purposely not providing for a child's emotional needs; or marked inattention to the child's need for affection, refusal or failure to provide needed psychological care, spouse abuse/family violence in the child's presence, and permission of drug/alcohol use by the child.

Definitions:

- 1/ Child Abuse and Neglect: Any recent act or failure to act on the part of a parent or cartaker which results in death or serious physical or emotional sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
- 2/ Physical Abuse: Non-accidental injury of a child or punching, beating, kicking, biting, burning, shaking, otherwise harming a child.
- 3/ Emotional Abuse: Patterns of behavior that attacks a child's emotional development and sense of self worth; name calling, blaming, belittling, terrorizing, humiliation and rejection.
- 4/ Sexual Abuse: Any act or a sexual nature upon or with a child; Fondling a child's genitals, intercourse, incest, rape sodomy, adult showing his or her genital area (indecent exposure), exposure to pornographic materials and commerical exploitation through prostitution or the production or the of pornographic materials.
- 5/ Physical Neglect: Purposely failure to act on behalf of a child or to provide adequately for a child; refusal of or delay in seeking health care (medical attention), abandonment, expulsion from the home, inadequate supervision (lack of adult supervision); failure to enroll a child of mandatory school age in school (educational eneglect); or failure to attend to a special education need and chronic truancy.
- 6/ Emotional Neglect: Purposely not providing for a child's emotional needs; or marked inattention to the child's need for affection, refusal or failure to provide needed psychological care, spouse abuse/family violence in the child's presence, and permission of drug/alcohol use by the child.

1/ Days away from work include those that result in days away from work with or without job transfer or restriction.

Excludes farms with fewer than 11 employees.

Dashes indicate data not available.

2/ Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved less days than a specified median.

Median days away from work are represented in actual values.

Note: Because of rounding, components may not add to totals. Dashes indicate data not available.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

NOTE: Sums may not add due to rounding

GLOSSARY

A

- Age_Sex Structure The age-sex structure is the composition of a population as determined by the number or proportion of males and females in each age category. The age_sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age_sex composition is essential for the description and analysis of many other types of demographic data. See also *Population Pyramid*.
- Average The average is the amount obtained by dividing the aggregate or total of a particular variable in the statistical universe by the number of units in that universe.

B

- Bankruptcy A legal procedure for dealing with debt problems of individuals and businesses. These procedures are covered under Title 11 of the United States Code (Bankruptcy Code). Bankruptcy laws help people who can no longer pay their creditors get a fresh start by liquidating their assets to pay their debts, or be creating a repayment plan. Bankruptcy laws also protect troubled businesses and provide for orderly distributions to business creditors through reorganization or liquidation.
- Birth A birth (live birth) is the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.
- Birth Rate The birth rate is the number of live births per 1,000 population in a given year. It should not be confused with the growth rate. See also *Growth Rate*.

C

- Census A census is the canvassing of a given area, resulting in an enumeration of the entire population and often the compilation of other demographic, social, and economic information pertaining to that population at a specific time. See also *Survey*.
- Census Designated Place Census designated places (CDP) are delineated for each decennial census to provide census data for concentrations of population, housing, and commercial structures that are identifiable by name but are not within an incorporated place. CDP boundaries usually are defined in cooperation with state, local, and tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. All places in Guam are CDPs.

Child Abuse and Neglect	Child abuse and neglect is at a minimum any recent act or failure on the part of a parent or caretaker which results in death, serious physical or emotional harm, sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
Childbearing Years	Childbearing years is the reproductive age span of women, assumed for statistical purposes to be 15_44 or 15_49 years of age.
Civilian	A civilian is a person who is not in the armed forces, including dependent members of the armed forces.
Civilian Labor Force	The civilian labor force is all persons 16 years and older employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed, Unemployed, and Not in Labor Force</i> .
Cohort	A group of people sharing a common temporal demographic experience who are observed through time. For example, the birth cohort of 1900 is the people born in that year.
Consumer Price Index	The Consumer Price Index (CPI) measures the rate at which the prices of consumer goods and services are changing over time. In practice, most CPIs are calculated as weighted averages of the percentage price changes for a specified set, or “basket”, of consumer products, the weights reflecting their relative importance in household consumption in some period. A monthly or quarterly price index compiled and published by an official statistical agency that measures changes in the prices of consumption goods and services acquired or used by households.
Crude Birth Rate	See <i>Birth Rate</i> .
Crude Death Rate	See <i>Death Rate</i> .
Crude Divorce Rate	See <i>Divorce Rate</i> .

_ D _

Death	Death is the permanent loss of all evidence of life after a live birth has occurred.
Death Rate	The death rate is the number of deaths per 1,000 population in a given year.
Defined Benefit Plan	The Defined Benefit Plan provides for retirement, disability, and survivor benefits to members of the plan prior to October 1,1995 (all government employees are required to participate in the Defined Contribution Plan after October 1, 1995). Under the Defined Benefit Plan, retirement benefits are based on age and/or years of credited service and an average of the three (3) highest annual salaries received by a member during the years of credited service, or six thousand (\$6,000), whichever is greater.

Defined Contribution Plan	Created by Public Law 23-42:3, this plan provides an individual account retirement system for any person who is employed by the Government of Guam. This plan is a single-employer pension and is the only plan for all new employees whose employment commences on or after October 1, 1995.
Density	Population density and housing unit density are computed by dividing the total population or number of housing units within a geographic entity by the land area of that entity measured in square kilometers or square miles. Density is expressed as both “people (or housing units) per square kilometer” and “people (or housing units) per square mile” of land area.
Dependency Ratio	The ratio of the economically dependent part of the population to the productive part; arbitrarily defined as the ratio of the elderly (ages 65 and older) plus the young (under age 15) to the population in the working ages (ages 15_64).
Disability Status	<p>Disability status was derived from answers to two Census questionnaire items. The first asked about the existence of the following long-lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment (sensory disability) and (b) a condition that substantially limits one or more basic physical activities, such as walking, climbing stairs, reaching, lifting, or carrying (physical disability) for the population 5 years old and over.</p> <p>Disability status was also determined by asking if the individual had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform activities in four categories: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self_care disability); (c) going outside the home alone to shop or visit a doctor’s office (going outside the home disability); and (d) working at a job or business (employment disability). Individuals were classified as having a disability if any of the following three conditions were true: (1) they were 5 years old and over and had a response of “yes” to a sensory, physical, mental or self_care disability; (2) they were 16 years old and over and had a response of “yes” to going outside the home disability; or (3) they were 16 to 64 years old and had a response of “yes” to employment disability.</p>
Divorce	A divorce is the legal termination of a marriage.
Divorce Rate	The divorce rate is the number of divorces per 1,000 population in a given year.

_ E _

Educational Attainment	The classification of people according to the level of education attained (the highest level of school completed or the highest degree received).
Election District	An election district is the official term for what is commonly called a “village”; there are the nineteen (19) election districts or villages on Guam.
Emotional Abuse	Patterns of behavior that attacks a person’s emotional development and sense of self worth (name calling, blaming, belittling, terrorizing, isolation, humiliation, and rejection).
Emotional Neglect	Purposely not providing for a person’s emotional needs (marked inattention to the person’s need for affection, refusal or failure to provide needed psychological care)
Employed	All civilians 16 years old and over were classified as employed if they were “at work” or “with a job but not at work” during the reference week, including temporarily absent. See also <i>Unemployed</i> and <i>Not in Labor Force</i> .
Ethnic Origin	Ethnic origin refers to an individual’s origin or descent, “roots,” heritage, or place where the individual or his/her parents or ancestors were born. Respondents reported their ethnic group regardless of the number of generations removed from their place or origin. Responses to the ethnic origin or race question reflected the groups with which respondents identified and not necessarily the degree of attachment or association the individual had with the particular group(s). See also <i>Race</i> .
Ethnicity	The cultural practices, language, cuisine, and traditions — not biological or physical differences — used to distinguish groups of people.

_ F _

Family	A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder’s family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.
Family Income	In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

Fertility	The data on fertility (also referred to as “children ever born”) were derived from the answers to the Census question which asked women 15 years old and over—regardless of their marital status—how many babies they have ever had. Stillbirths, stepchildren, and adopted children were excluded from the number of children ever born. Data are most frequently presented in terms of the aggregate number of children ever born to women in specified population groups and in terms of the rate per 1,000 women.
Fetal Death	A fetal death is a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy; the death is indicated the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.
Freely Associated States	The Freely Associated States (FAS) consists of the Federated States of Micronesia (FSM), Republic of the Marshall Islands (RMI), and the Republic of Palau. Formerly a part of the Trust Territory of the Pacific Islands (TTPI), they became independent nations in free association with the United States.

_ G _

General Fertility Rate	The general fertility rate (GFR) is the number of live births per 1,000 women ages 15_44 or 15_49 years in a given year.
Gross Domestic Product	The gross domestic product (GDP) is the total market value of all the goods and services produced within a country in a given period of time.
Gross Reproduction Rate	The gross reproductive rate (GRR) is the average number of daughters that would be born alive to a woman (or group of women) during her lifetime if she passed through her childbearing years conforming to the age_specific fertility rates of a given year. See also <i>Net Reproduction Rate</i> and <i>Total Fertility Rate</i> .
Group Quarters	Group quarters is used to describe places in which people reside that are not considered “housing units,” such as prisons, long-term care hospitals, military barracks, and dormitories. The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized: <ol style="list-style-type: none"> (1) the institutionalized population which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration. Such people are classified as “patients or inmates” of an institution regardless of the availability of nursing or medical care, the length of stay, or the number of people in the institution. Generally, the institutionalized population is restricted to the institutional buildings and grounds (or must have passes or escorts to leave) and thus have limited interaction with the surrounding community. Also, they are

generally under the care of trained staff who have responsibility for their safekeeping and supervision, and

- (2) the noninstitutionalized population which includes people who live in group quarters other than institutions. It also includes staff residing in military and nonmilitary group quarters on institutional grounds who provide formally authorized, supervised care or custody for the institutionalized population.

Growth Rate The growth rate is a general expression of the number of people added to (or subtracted from) a population in a year due to natural increase and net migration expressed as a percentage of the population at the beginning of the time period.

_ H _

Homeless According to the Stewart B. McKinney Act, 42 U.S.C. § 11301, et seq. (1994), a person is considered homeless who "lacks a fixed, regular, and adequate night_time residence and; and... has a primary night time residency that is: (A) a supervised publicly or privately operated shelter designed to provide temporary living accommodations... (B) an institution that provides a temporary residence for individuals intended to be institutionalized, or (C) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings." 42 U.S.C. § 11302(a) The term "homeless individual" does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a state law." 42 U.S.C. § 11302(c).

Household A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) Separate living quarters are those in which the occupants live separately from any other people in the building and that have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Household Income Household income is the sum of all incomes of all members 15 years old and over of a household which are treated as a single amount.

Housing Unit A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. See also *Tenure*.

HTSUSA Acronym for *Harmonized Tariff Schedule for the United States Annotated*. The HTSUSA provides the applicable tariff rates and statistical categories for all merchandise imported into the United States. It is based on the international Harmonized System, the global system of nomenclature that is used to describe most world trade in goods.

_ I _

Income	Income is the wages or revenue accruing from labor, business enterprise, or investments. See also <i>Household Income</i> , <i>Family Income</i> , <i>Individual Income</i> , <i>Mean Income</i> , <i>Median Income</i> , and <i>Per Capital Income</i> .
Individual Income	Income for individuals is obtained by summing the total income for each person.
Immigration	Immigration is the process of entering one country from another to take up permanent or semi-permanent residence.
Industry	Industry relates to the kind of business conducted by a person's employing organization described by its economic product or activity.
Infant Death	An infant death is a death occurring to an individual of less than one year of age
Infant Mortality Rate	The infant mortality rate is the number of deaths of infants under one year of age per 1,000 live births in a given year.

_ L _

Labor Force	The labor force is all persons employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Life Expectancy	Life expectancy is the average number of additional years a person could expect to live if current mortality trends were to continue for the rest of that person's life. It is most commonly cited as life expectancy at birth.

_ M _

Marriage	A marriage is a social institution involving legal or religious sanction whereby a man and a woman are joined together for the purpose of founding a family unit (traditional).
Maternal Death	A maternal death is a death wherein the physician has designated a maternal condition as the underlying cause of death.
Mean	This measure represents an arithmetic average of a set of values. It is derived by dividing the sum (or aggregate) of a group of numerical items by the total number of items in that group.
Mean Age	The mathematical average age of all the members of a population.
Mean Income	Mean income is the amount obtained by dividing the aggregate income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households.

Median	The median divides a distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of n data values. The median divides the total frequency distribution into two equal parts: one_half of the cases falling below the median and one_half above the median.
Median Age	The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.
Median Income	The median divides the income distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. For households and families, the median income is based on the distribution of the total number of households and families including those with no income.
Migration	The movement of people across a specified boundary for the purpose of establishing a new or semi-permanent residence. Divided into international migration (migration between countries) and internal migration (migration within a country).
Minor Civil Division	Minor Civil Divisions (MCD) are the primary governmental or administrative divisions of a first_order subdivision. On Guam, they are Guam's election districts (villages). The MCDs in Guam are geographic subdivisions of the first_order subdivision(s) and are not governmental units.
Mortality	Mortality is a general term for deaths as a component of population change.
_ N _	
Natality	Natality is a general term for births as a component of population change.
Natural Increase (Decrease)	The surplus (or deficit) of births over deaths in a population in a given time period.
Neonatal Death	A neonatal death is death occurring to an individual of less than 28 days of age.
Neonatal Mortality Rate	The neonatal mortality rate is the number of deaths of infants under 28 days of age in a given year per 1,000 live births in that year.
Net Migration	The net effect of immigration and emigration on an area's population in a given time period, expressed as an increase or decrease.
Net Migration Rate	The net effect of immigration and emigration on an area's population, expressed as an increase or decrease per 1,000 population of the area in a given year.

Net Reproduction Rate The net reproduction rate (NRR) is the average number of daughters that would be born to a woman (or a group of women) if she passed through her lifetime conforming to the age_specific fertility and mortality rates of a given year. This rate is similar to the gross reproduction rate but takes into account that some women will die before completing their childbearing years. An NRR of one means that each generation of mothers is having exactly enough daughters to replace itself in the population. See also *Total Fertility Rate*.

Not in Labor Force All people 16 years old and over who are not classified as members of the labor force. This category consists mainly of students, individuals taking care of home or family, retired workers, seasonal workers enumerated in an off_season who were not looking for work, institutionalized people (all institutionalized people are placed in this category regardless of any work activities they may have done in the reference week), and people doing only incidental unpaid family work (fewer than 15 hours during the reference week). See also *Employed* and *Unemployed*.

Nuptiality Nuptiality is the general term for the frequency, characteristics, and dissolution of marriages in a population.

_ O _

Occupation Occupation describes the kind of work a person does on the job or a position in the labor force..

_ P _

Part I Offense Part I Offenses is the first of two main groupings of Uniform Crime Reporting Program (UCR) crime classifications consisting of eight offenses reported whether or not they involve arrests:

1. Criminal Homicide,
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary
6. Larceny_theft (except motor vehicle theft)
7. Motor Vehicle Theft
8. Arson

See also *Part II Offenses* and *Uniform Crime Report*.

Part II Offense Part II Offenses is the second of the two main Uniform Crime Reporting Program (UCR) groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Law enforcement agencies report to the FBI only arrest data involving the Part II crimes:

9. Other Assaults
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property: Buying, Receiving, Possessing
14. Vandalism
15. Weapons: Carrying, Possessing, etc.
16. Prostitution and Commercialized Vice
17. Sex Offenses
18. Drug Abuse Violations
19. Gambling
20. Offenses Against the Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses
27. Suspicion
28. Curfew and Loitering Laws—(Persons under 18)
29. Runaways—(Persons under 18)

See also *Part II Offenses* and *Uniform Crime Report*.

Per Capita Income	The per capita income is the amount obtained by dividing the aggregate income of all individuals, including those without incomes, by the total number of individuals.
Percentage	This measure is calculated by taking the number of items in a group possessing a characteristic of interest and dividing by the total number of items in that group, and then multiplying by 100.
Permanent Resident	A permanent resident is any person not a citizen of the United States who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant (also known as "Permanent Resident Alien", "Lawful Permanent Resident," "Resident Alien Permit Holder," and "Green Card Holder"). See also <i>Temporary Resident</i> .
Physical Abuse	Non-accidental injury of a person (punching, beating, kicking, biting, burning, shaking, otherwise harming a person).
Physical Neglect	Purposely failure to act on behalf or to provide adequately for the person (refusal of or delay in seeking health care, abandonment, expulsion from home).
Place	Places, for the reporting of decennial census data for the Pacific Island Areas, include census designated places (CDP) and incorporated places.

Population	The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended.
Population Estimate	Population estimates are approximations of current or past population of an area at a given time, or its distribution or composition in absence of complete enumeration.
Population Density	The population density is the population per unit of land area; for example, people per square mile or people per square kilometer of arable land.
Population Projection	Population projections are the computations of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality, and migration. Demographers often issue low, medium, and high projections of the same population, based on different assumptions of how these rates will change in the future.
Population Pyramid	A bar chart, arranged vertically, that shows the distribution of a population by age and sex. By convention, the younger ages are at the bottom, with males on the left and females on the right.
Poverty	<p>Poverty is an economic and social condition for an individual, family, or household whose level of living in terms of food, housing, clothing, medical needs, and so on are determined to be below the community standard.</p> <p>Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14 (1978), the Census Bureau uses a set of money income thresholds designed in the 1960s that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation using the Consumer Price Index (CPI_U). The official poverty definition counts money income before taxes and does not include capital gains and noncash benefits (such as public housing, medicaid, and food stamps). Poverty is not defined for people in military barracks or institutional group quarters or for unrelated individuals under age 15 (such as foster children). They are excluded from the poverty universe — that is, they are considered neither as “poor” nor as “nonpoor.”</p>
Poverty Status	For the 2000 Census, the poverty status of families and unrelated individuals in 1999 was determined using 48 thresholds (income cutoffs) arranged in a two dimensional matrix. The matrix consists of family size (from 1 person to 9 or more people) cross_classified by presence and number of family members under 18 years old (from no children present to 8 or more children present). Unrelated individuals and 2_person families were further differentiated by the age of the reference person (RP) (under 65 years old and 65 years old and over).

To determine a person's poverty status, one compares the person's total family income with the poverty threshold appropriate for that person's family size and composition. If the total income of that person's family is less than the threshold appropriate for that family, then the person is considered poor, together with every member of his or her family. If a person is not living with anyone related by birth, marriage, or adoption, then the person's own income is compared with his or her poverty threshold.

_ Q _

Quartile	Quartile is a measure that divides a distribution into four equal parts. The first quartile (or lower quartile) is the value that defines the upper limit of the lowest one-quarter of the cases. The second quartile is the median. The third quartile (or upper quartile) is defined as the upper limit of the lowest three quarters of cases in the distribution. Quartiles are presented for certain financial characteristics, such as housing value and contract rent. The distribution used to compute quartiles is the same as that used to compute medians for that variable.
Quintile	Quintile is a measure that divides a distribution into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households; the highest quintile is the highest 20 percent on the same basis.

_ R _

Race	The racial classification used by the Census Bureau adheres to the October 30, 1997, Federal Register Notice entitled "Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity" issued by the Office of Management and Budget (OMB). These standards govern the categorization of race in census data products. The OMB identified five minimum race categories (White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander). In addition to the five race groups, the OMB also states that respondents should be offered the option of selecting one or more races. See also <i>Ethnic Origin</i> .
Rate	A rate is a measure of occurrences in a given period of time divided by the possible number of occurrences during that period. Rates are sometimes presented as percentages.
Rate of Natural Increase (or Decrease)	The rate of natural increase (or decrease) measures the population increase (or decrease) in a given year due to a surplus (or deficit) of births over deaths, expressed as a percentage of the base population.

Ratio A ratio is a measure of the relative size of one number to a second number expressed as the quotient of the first number divided by the second. For example, the sex ratio is calculated by dividing the total number of males by the total number of females, and then multiplying by 100.

Rural See *Urban and Rural*.

_ S _

Sex Ratio The sex ratio is a measure derived by dividing the total number of males by the total number of females, and then multiplying by 100.

Survey A survey is a canvass of selected persons or households in a population usually used to infer demographic characteristics or trends for a larger segment or all of the population. See also *Census*.

_ T _

Temporary Resident A temporary resident is a nonimmigrant alien who seeks temporary entry to the United States for a specific purpose. The alien must have a permanent residence abroad (for most classes of admission) and qualify for the nonimmigrant classification sought. The nonimmigrant classifications include: foreign government officials, visitors for business and for pleasure, aliens in transit through the United States, treaty traders and investors, students, international representatives, temporary workers and trainees, representatives of foreign information media, exchange visitors, fiancé(e)s of U.S. citizens, intracompany transferees, NATO officials, religious workers, and some others. Most nonimmigrants can be accompanied or joined by spouses and unmarried minor (or dependent) children. See also *Permanent Resident*.

Tenure Tenure represents the condition or nature by which occupancy of a housing unit is held. All occupied housing units are classified as either owner occupied or renter occupied. A housing unit is owner occupied if the owner or co_owner lives in the unit even if it is mortgaged or not fully paid for. All occupied housing units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter occupied.

Total Fertility Rate (TFR) The total fertility rate is the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age_specific fertility rates of a given year. This rate is sometimes stated as the number of children women are having today. See also *Gross Reproduction Rate* and *Net Reproduction Rate*.

_ U _

Unemployed All civilians 16 years old and over were classified as unemployed if they were neither “at work” nor “with a job but not at work” during the reference week, were looking for work during the last 4 weeks, and were

available to start a job. Also included as unemployed were civilians 16 years old and over who: did not work at all during the reference week, were on temporary layoff from a job, had been informed that they would be recalled to work within the next 6 months or had been given a date to return to work, and were available to return to work during the reference week, except for temporary illness. See also *Employed and Not in Labor Force*.

Uniform Crime Report (UCR) Uniform crime reporting is a collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the Uniform Crime Reporting (UCR) Program provide summarized reports on eight Part I offenses known to law enforcement and reports on persons arrested. They also provide information about law enforcement officers killed and assaulted and on hate crime.

The UCR Program divides offenses into two groups—Part I and Part II. The Program collects data on all Part I offenses that become known to law enforcement whether or not they involve arrests. These crime totals are essential to measuring the level and scope of crimes occurring across the country. Part II offenses are all crime classifications other than those defined as Part I. The UCR Program collects arrest data for both Part I and Part II offenses. See also *Part I Offenses* and *Part II Offenses*.

Urban and Rural The U.S. Census Bureau classifies as urban all territory, population, and housing units located within urbanized areas (UAs) and urban clusters (UCs). It delineates UA and UC boundaries to encompass densely settled territory, which generally consists of:

- A cluster of one or more block groups or census blocks each of which has a population density of at least 1,000 people per square mile at the time, and
- Surrounding block groups and census blocks each of which has a population density of at least 500 people per square mile at the time, and
- Less densely settled blocks that form enclaves or indentations, or are used to connect discontinuous areas with qualifying densities.

Rural consists of all territory, population, and housing units located outside of UAs and UCs. Geographic entities such as first_order subdivisions, minor civil divisions, and places often contain both urban and rural territory, population, and housing units.

The urban and rural classification applies to the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands of the United States.

There are UCs in all the Pacific Island Areas, but only the Northern Mariana Islands has a UA (Saipan).

Urban Cluster (UC)	An urban cluster (UC) consists of densely settled territory that has at least 2,500 people but fewer than 50,000 people, except in Guam. By agreement with the Government of Guam, the U.S. Census Bureau recognizes Hagåtña as a UC rather than an urbanized area.
Urbanized Area (UA)	An urbanized area (UA) consists of densely settled territory that contains 50,000 or more people, except in Guam (see below). The U.S. Census Bureau delineates UAs to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places.

_ V _

Veterans Status	For Census data products, a civilian veteran is a person 18 years old and over who, at the time of the enumeration, had served on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard in the past (even for a short time), but was not then on active duty, or who had served in the Merchant Marine during World War II. People who had served in the National Guard or Military Reserves were classified as veterans only if they had ever been called or ordered to active duty, not counting the 4 to 6 months for initial training or yearly summer camps. All other civilians 18 years old and over were classified as nonveterans.
Vital Statistics	Vital statistics is the collection of Demographic data on births, deaths, fetal deaths, marriages, divorces, and related events usually compiled through a registration system or other administrative record system.
